

FOR IMMEDIATE RELEASE

## Dungeon Defenders v2.0 brings Cross-Platform Gaming to iOS and Android!

***New content, chase camera, tutorial, iOS 3.2+ support, crash fixes, & more! On sale now for \$.99!***

**Gainesville, FL – 19 January 2010 –**

Trendy Entertainment has released the first major patch for Dungeon Defenders: First Wave, **on sale on iOS & Android this Wednesday (1/19) for \$.99**, after which it retails for \$4.99!

New Features:

- Chase Camera which allows for a true third-person, console-like experience
- GameSpy support for direct cross-platform iOS-Android game play.
- iOS 3.2+ support (issues on jailbroken 4.1 devices\*)
- Performance Scaling Options (iPhone 4 users can set this to max for the best graphics!)
- iOS custom background music support
- New tutorial video, explaining the game in only a minute
- Familiars (pets) re-added into the game

New Content:

- Max item level raised to 15 and max character level raised to 70
- New item drop types
- New campaign level and challenge mission for high-level heroes
- Cross-platform leaderboards

Game Fixes:

- Eliminated low cap on speed stat. and changed some related calculations
- INSANE difficulty is much, much harder
- Rebalanced item drops to make super items harder to get
- Fixed levelling & item farming exploits
- Improved voice chat stability
- Eliminated many GameCenter & iOS related crashes
- Large performance boost due to media and code optimization
- Rebalanced item value ramp
- Replaced on-screen pause button with character button which allows for fast-healing
- Moved pause button into character sub-menu
- Lots of minor bug fixes, etc.
- Items now have a level requirement based on their quality
- Fixed German Translation!

NOTE: Some users are experiencing issues on jailbroken devices with iOS 4.1. We are looking into this issue right now.
